Animal and Plant Health Inspection Service

Title: Spring Viremia of Carp-Susceptible Finfish and their Gametes, and Diagnostic Specimens Importation Permits.

OMB Control Number: 0579-0301.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of the health of animals under the Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture (USDA) regulatory authority. APHIS has import restrictions at title 9, parts 92 through 98, of the CFR. Sections 93.900 through 93.906 contain the requirements to prevent the introduction spring viremia of carp disease (SVC) into the United States. SVC is disease of certain species of finfish that is caused by an eponymous rhabdovirus. The disease is considered extremely contagious, and there are currently no U.S. approved vaccines or treatments for the virus.

Need and Use of the Information: APHIS has developed import requirements for SVC-susceptible fish species. This necessitates the use of several information collection activities, including the completion of VS forms 17-129, Fish Import Permit Application, 17-29, Application for Import or In Transit Permit, 16-3, Diagnostic Specimen Import Permit Application, 17-136, Refusal of Entry and Order to Dispose of Fish; a health certificate and or cleaning and disinfection certificate; 72-hour notification of arrival, and recordkeeping requirements. Without the information, APHIS would be unable to effectively protect farmed fish populations that are known to be susceptible to SVC from imports of finfish or their gametes infected with SVC virus.

Description of Respondents: Business or other for-profit; Federal Government.

Number of Respondents: 77.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 1,017.

Departmental Information Collection Clearance Officer.
