Economic Research Service

ERS anticipates trends and emerging issues in agriculture, food, the environment, and rural America and conducts high-quality, objective economic research to inform and enhance public and private decision making.

ERS Research Addresses Several Key Issues

- Farm Labor
- Farm Income
- Farm Bill & Farm Policy
- Financial Risk & Tax Policy
- Rural Infrastructure
- Trade Policy/Foreign Competition
- Technology Adoption & Precision Ag
- Rural Economic Prosperity
- Availability Of Credit & Banking
- Healthy, Local, Organic Foods
- Income & Debt
- Weather Variability & Drought Resilience
- Sustainability
- Bioengineered Foods/Biotech
- Water Use, Irrigation, & Resource Conservation
- Consumers & Food Assistance Policy
- Beginning Farmers
- Food Safety Rules
- Risk Management
- Bioenergy
- Land Use

Meeting Current Challenges

ERS COVID-19 Rapid Response Team provides timely economic analysis to help policymakers understand the current impact and status of the pandemic.

COVID-19 Working Paper Series provides initial research and analysis on topics relevant to understanding the impacts of the pandemic in a short turnaround timeframe.

ERS Analysis of EC Farm to Fork Strategies provided a range of policy simulations to examine the economic implications of the European Commission's Farm to Fork and Biodiversity Strategies.

The Effect on Family Farms of Changing Capital Gains Taxation at Death report presents a framework for evaluating the effects of changes in capital gains taxation on inherited assets.

Enhancing policy decisions by providing **trusted, objective, & timely** research & statistics on agriculture, food, the environment & rural America.

Economic Research Service
U.S. DEPARTMENT OF AGRICULTURE

Launching Innovative ERS Research in FY 2022

Strategic Innovations Grants Program: Internal competitive grant program designed to harness ERS human capital, research, data & modeling to address emerging challenges within food, agriculture & rural America.
